The fight against Booth was the sister against brother, but strangely enough the fight was not made on General Booth. The fight was against a system, the reform element believing there was a virtual autocracy in the comman dership under the present constitution of the Salvation Army. Under the present constitution the commander is appointed by the re tiring commander and the commander has complete control of finances and major decisions

throughout the world. General Booth already had named his successor, it was understood, and the name was in a

sealed envelope at his home. The reform element, headed by Evangeline Booth, believed the commander should be elected and that the finances and other major matters should be under control of the council. Many names have been suggested for commander, including that of Commander Evangeline Booth. Some opposition to her has developed, however.

### COMMISSION PLANS TO NAME SUCCESSOR HERE FRIDAY NIGHT

New Commissioner And Mayor Must Be Selected

John W. Prugh, mayor of the city of Xenia and a member of City Commission since January 1, 1926, filed his written resignation of both offices with City Auditor T. H. Zell Thursday morning in order to begin immediately his new duties as state build-

ing and loan superintendent. Figuratively, however, Xenia still has a mayor as the resignations of both positions do not become effective until Saturday, January 19.

The date for the resignations to become effective was delayed until Saturday because of the inability of City Commission to hold a special meeting to appoint his successor before sometime Friday morning or afternoon.

Efforts made to call a special commission meeting Wednesday night or Thursday were unavailing because several commissioners due to pressure of business, could not be present. Although Prugh will be in Co lumbus Thursday and Friday, he

### HERE FRIDAY NIGHT New Commissioner And

COMMISSION PLANS

TO NAME SUCCESSOR

Mayor Must Be Selected

John W. Prugh, mayor of the city of Xenia and a member of City Commission since January 1, 1926, filed his written resignation of both offices with City Auditor T. H. Zell Thursday morning in order to begin immediately his new duties as state building and loan superintendent.

Figuratively, however, Xenia still has a mayor as the resignations of both positions do not become effective until Saturday, January 19.

The date for the resignations to become effective was delayed until Saturday because of the inability of City Commission to hold a special meeting to appoint his successor before sometime Friday morning or afternoon. Efforts made to call a special

commission meeting Wednesday night or Thursday were unavailing because several commissioners due to pressure of business, coul not be present. Although Prugh will be in Columbus Thursday and Friday, he

## FOR THE COUGH FROM COLDS THAT HANG ON

On January 7, 1926, the Pontiac Six came into existence. It had bodies by Fisher. It sold for \$825. It introduced real luxury and beauty to buyers in the low-priced field.

But Pontiac's builders did not stop there. They knew that American people are constantly on the lookout for new and finer things. So in February, 1927, they introduced the New and Finer Pontiac Six. And it was lower in price than ever, selling for \$775.

Then, in July, greatly increased production enabled Pontiac's builders to reduce the price again. Now Pontiac sold for \$745.

Came 1928, and with it a still finer Pontiac. Even then the price remained only \$745. And after six months, Pontiac was made faster, more powerful than ever and more attractive in style.

This brief history is significant. For it gives you an idea of something that is coming. Automobile history is repeating itself again. Soon Oakland will present a brand new Pontiac Six, an even greater advancement over its field than the original Pontiac represented in 1926. Watch for the

1929, The American Tobacco Co., Manufacturer

NTO longer need a trim, slender figure be your envy. No longer need you face the rigid requirements of harsh dieting methods. Overweight is banished when you banish fattening sweets and eating between meals and light a Lucky. "Reach for a Lucky instead of a sweet."

George M. Cohan,

America's Stage Favorite

20,679 physicians have confirmed the fact that Lucky Strike is less irritating to the throat than other cigarettes. These professional men realize the value of toasting, the secret process that eliminates impurities and irritants. Lucky Strike is a delightful blend of the world's finest tobaccos. And toasting develops a flavor which is a delightful alternative for fattening sweets.

Many prominent athletes testify that Luckies steady their nerves and do not harm their physical condition. Men have long known this and practiced it successfully. These are the men who watch their health, who keep trim and fit, realizing the dangers of overweight. And now, women may enjoy a companionable smoke with their husbands and brothers—at the same time slenderizing in a sensible manner. That's why folks say: "It's good to smoke Luckies."

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake

On January 7, 1926, the Pontiac Six came into existence. It had bodies by Fisher. It sold for \$825. It introduced real luxury and beauty to buyers in the low-priced field.

But Pontiac's builders did not stop there. They knew that American people are constantly on the lookout for new and finer things. So in February, 1927, they introduced the New and Finer Pontiac Six. And it was lower in price than ever, selling for \$775.

Then, in July, greatly increased production enabled Pontiac's builders to reduce the price again. Now Pontiac sold for \$745.

Came 1928, and with it a still finer Pontiac. Even then the price remained only \$745. And after six months, Pontiac was made faster, more powerful than ever and more attractive in style.

This brief history is significant. For it gives you an idea of something that is coming. Automobile history is repeating itself again. Soon Oakland will present a brand new Pontiac Six, an even greater advancement over its field than the original Pontiae represented in 1926. Watch for the

O longer need a trim, slender figure be your envy. No longer need you face the rigid requirements of harsh dieting methods. Overweight is banished when you banish fattening sweets and eating between meals and light a Lucky. "Reach for a Lucky instead of a sweet."

George M. Cohan,

America's Stage Favorite

20,679 physicians have confirmed the fact that Lucky Strike is less irritating to the throat than other cigarettes. These professional men realize the value of toasting, the secret process that eliminates impurities and irritants. Lucky Strike is a delightful blend of the world's finest tobaccos. And toasting develops a flavor which is a delightful alternative for fattening sweets.

Many prominent athletes testify that Luckies steady their nerves and do not harm their physical condition. Men have long known this and practiced it successfully. These are the men who watch their health, who keep trim and fit, realizing the dangers of overweight. And now, women may enjoy a companionable smoke with their husbands and brothers-at the same time slenderizing in a sensible manner. That's why folks say: "It's good to smoke Luckies."

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake

Rub Musterole on the congested parts and see how quickly it brings relief as effectively as the messy old mustard plaster.

Musterole, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold.

You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief. Jars & Tubes

Have the boys meet your par ents, girls, and see what they think about them. If they are willing to let you go with the boys, run along. ### MANY BAD WEATHER SAMPLES SERVED TO SUFFERING XENIA

"And the worst is yet to come. It will be "rain and colder" Fr day.

The weather man was vindica ed Wednesday when his predictio of sleet came true.

The rain became a driving slee which formed a mirror of ice over the city. During the evening th sleety drizzle ceased and then grew cold in earnest. Roofs an sidewalks glistened with ice; leafless trees stretched forth their icecovered tentacles into the cold, penetrating air; pedestrians and n glassy pavements; autos either skidded dangerously or set up an incessant rattle with their chains.

Few persons ventured out of doors. Sliding on the glassy surface, head bent against the driving sleet, Xenians, eager to attain the warmth and coziness of their firesides, found the going treach-Autoists were equally if not more

up against it. The sleet slapped viciously against windshields and stuck there, obscuring vision of the icy asphalt ahead.

Thursday morning a drizzling Box score: accompanied by warmer No. 1 Team. weather thawed the ice, made the streets and sidewalks less slippery, but more sloppy and on the whole resulted in a more uncomfortable condition. It was also

#### FACULTY FIVE WINS FROM FRESHMEN IN SCHOOL LOOP GAME

Coach Wilson Stars In pus Attucks High. Inaugural Of League Series

Xenia Central High School's faculty basketball quintet had a walkaway with the freshmen winning by the one-sided margin of 44 to 10 in the inaugural game of the annual Intra-Mural Basketball League at the school gymnasium Tuesday afternoon.

The game was played during activity period and the freshmen suspect that a conspiracy existed to several freshmen players, counted on as regulars, were prevented from playing because of instructions to check up on ce / 11. subjects.

Consequently the frosh mustered together a rather weak lineup Coach Walter L. "Pinky" Wilson was the big noise in the faculty victory. Playing center, he shot ten baskets. Evjen, subbing at forward in the second half, contributed twelve points. Baldmer starred for the freshmen and shared scoring honors with Halstead, each mak-

MIAMI, Fla., Jan. 10.—On a beau tiful island in the green waters of Biscayne Bay, a proud old resi dence raises its three stories grandly from a cluster of palms. Bougainvillea vines reach from foundation to eaves, almost hiding from view the new white coating recently applied. Workmen, like a swarm of bees, are darting hither and yon, each with some task to perform in beautifying the gardens and buildings. Such is Miami's tropical White House where President-elect Herbert Hoover will spend many cappy hours during his six-week stav in Miami.

James Cash Penney, head of a chain store corporation, is the owner of the Belle Isle estate at which Hoover will rest before inauguration.

The presidential suite is located on the second floor. Two rooms, bath and private balcony have been alloted Mr. Hoover in the south eastern wing. One of these rooms will be used for sleeping purposes and the other as a study. They are connected by bath. The balcony is screened and opens onto a second balcony overlooking the music salon on the first floor of the west wing. A wonderful vista is afforded from Mr. Hoover's

Two other bedrooms on the second floor probably will be occupied by Mr. Hoover's immediate family. A magnificent ball room stretches across the entire west wing of the third floor and is lighted by a clus-

Among the great list of local residents and people in nearby towns to indorse Konjola is Mrs. Emma Engle, Route No. 2, Spring Valley, (near Xenia) who gave the following statement:

"This medicine has certainly made a wonderful change over my entire system and since it restored the health I tried so long and hard to obtain, I think it only right that I indorse it to others," said Mrs. Engle.

"This past Spring I was afflict ed with bronchitis and influenza and these ailments left me in an entirely rundown and weakened condition. My nerves could no hold up under the strain and became so upset that I was bothered constantly with them. All during the day I was subject to such nau seating dizzy spells that when they passed off, I always suffered from a splitting headache and I would have to lie down for hours in order to get relief. I was unable to sleep well at night because of terrible night sweats. Of course. these were very weakening and my strength rapidly left me. I did not have any energy and my appetite was less than nothing. The food that I did eat sometimes refused to remain in my stomach. I had lost fourteen pounds and was

very down-hearted. "Konjola has received so many sincere recommendations from local residents that I made further inquiries about this medicine \$ and found that in the majority of cases, it does all that is claimed for it. This gave me confidence and so I started on the treatment. It is a blessing that I did because this medicine proved a Godsend to me. It has restored my health in every way and I will always indorse it to others. First of a. Konjola quieted my nerves so that they stopped bothering me and now I can go to bed and sleep through the entire night. I have gained so much in strength and weight that I hardly know I am the same person. Those awful dizzy spells never come over me and consequently I don't have a single headache. Those awful night sweats are things of the past and I feel sure the relief is permanent. My stomach does not cause me any suffering and I can eat whatever I want without mable afterward. Food digests periectly and I never worry about keeping it on my stomach.
